

Social media image sizes

2026

Reference edition

UPDATED OCTOBER 9, 2026

Dimensions in pixels, width first. Recommendations and requirements are labeled; working canvases are SquarePic export sizes. Full sources are on pages 5 and 6.

01 Instagram

Notes / sources p. 5

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Square feed	1080 x 1080	1:1	Working canvas
Portrait feed	1080 x 1350	4:5	Working canvas
Stories / Reels artwork	1080 x 1920	9:16	Working canvas

Working canvases. Preview carousel and profile-grid crops.

02 Facebook

Notes / sources p. 5

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Square feed	1080 x 1080	1:1	Working canvas
Page cover	851 x 315	851:315	Working canvas
Stories artwork	1080 x 1920	9:16	Working canvas

Working exports. Check cover crops on desktop and mobile.

03 X (Twitter)

Notes / sources p. 5

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Profile photo	400 x 400	1:1	Recommendation
Header	1500 x 500	3:1	Recommendation

Keep the header subject clear of the profile-photo overlap.

2026 REFERENCE EDITION

Instagram and Facebook Help restricted access during review. Their rows are working canvases, with current upload requirements unconfirmed.

2026 EDITION / UPDATED OCTOBER 9, 2026

Professional posts and video

All dimensions are pixels, width first. Ad specifications apply to the named placement.

04 LinkedIn

Notes / sources p. 5

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Company Page logo	400 x 400	1:1	Recommendation
Company Page cover	1512 x 256	189:32	Recommendation
Personal cover	1584 x 396	4:1	Recommendation
Post with custom link image	1200 x 627	400:209	Recommendation

Company Page covers and personal covers use different sizes.

05 TikTok

Notes / sources p. 5

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Carousel ad, horizontal	1200 x 628	300:157	Ad specification
Carousel ad, square	640 x 640	1:1	Ad specification
Carousel ad, vertical	720 x 1280	9:16	Ad specification
Organic vertical artwork	1080 x 1920	9:16	Working canvas

Ad specifications apply to Standard Carousel ads only.

06 YouTube

Notes / sources p. 5

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Video thumbnail	3840 x 2160	16:9	Recommendation
Channel banner	2560 x 1440	16:9	Recommendation
Channel banner upload	2048 x 1152	16:9	Minimum

Banner safe area at the minimum upload: 1235 x 338 pixels.

YOUTUBE BANNER / TEXT AND LOGO SAFE AREA

1235 x 338

Safe area at the minimum 2048 x 1152 upload. Keep text and logos inside the highlighted center; check YouTube's upload preview.

2026 EDITION / UPDATED OCTOBER 9, 2026

Pins, ads and channel artwork

Use separate exports for desktop and mobile. Preview every crop before publishing.

07 Pinterest

Notes / sources p. 6

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Standard image Pin / ad	1000 x 1500	2:3	Recommendation

Standard image canvas. Taller Pins can be cropped in feeds.

08 Snapchat

Notes / sources p. 6

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Single Image or Video Ad	720 x 1280	9:16	Ad specification
Full-screen artwork	1080 x 1920	9:16	Working canvas

The ad specification applies to Single Image or Video Ads.

09 WhatsApp

Notes / sources p. 6

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Profile photo	192 x 192 or larger	Square crop	Suggested minimum
Profile working export	500 x 500	1:1	Working canvas
Status artwork	1080 x 1920	9:16	Working canvas

500 x 500 is a working export, separate from the minimum.

10 Twitch

Notes / sources p. 6

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Profile banner	1200 x 480	5:2	Recommendation
Panel artwork	320 x 160	2:1	Working canvas

Panel height varies. 320 x 160 is a working canvas.

RESIZE WITH SQUAREPIC

Open squarepic.io to resize, crop or make an image square. Use custom dimensions when a tool preset differs from the platform source.

2026 EDITION / UPDATED OCTOBER 9, 2026

Community profiles and banners

Use separate exports for desktop and mobile. Preview every crop before publishing.

11 Reddit

Notes / sources p. 6

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Community banner, desktop	1072 x 128	67:8	Minimum
Community banner, mobile	1080 x 128	135:16	Minimum

Desktop and mobile have separate minimum banner widths.

12 Telegram

Notes / sources p. 6

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Profile artwork	500 x 500	1:1	Working canvas

API-generated photo sizes are not upload requirements.

13 Discord

Notes / sources p. 6

PLACEMENT	PIXELS / W x H	RATIO	BASIS
Server banner	960 x 540	16:9	Minimum
Invite background / splash	1920 x 1080	16:9	Requirement
Icon / avatar artwork	512 x 512	1:1	Working canvas

Server banner: Level 2. Invite background: Level 1.

CHECK THE CROP

Keep important text and faces away from the edges. App controls, profile photos and invite overlays can hide artwork even at the correct dimensions.

COMMON CANVASES

1:1
Square

4:5
Portrait

2:3
Pin

9:16
Vertical

16:9
Landscape

2026 EDITION / UPDATED OCTOBER 9, 2026

Placement notes and sources

Official platform documentation reviewed October 9, 2026. Full URLs are clickable.

01 Instagram

These are working canvases. Instagram Help could not be read during this review, so its current upload limits are unconfirmed. Check the app preview, including carousel and profile-grid crops.

Instagram Help: image resolution / Access restricted

<https://help.instagram.com/1631821640426723>

02 Facebook

Facebook Help redirected to sign-in during this review. These are working exports, not verified platform requirements. Preview cover crops on desktop and mobile.

Facebook Help: Page profile and cover photos / Sign-in required

<https://www.facebook.com/help/125379114252045>

03 X (Twitter)

X recommends these profile and header sizes. Keep the subject centered and leave space for the profile photo over the header.

X Help: profile and header photos / Checked

<https://help.x.com/en/managing-your-account/common-issues-when-uploading-profile-photo>

04 LinkedIn

Personal covers and company Page covers are different uploads. LinkedIn's current Page specification is 1512 x 256; 1128 x 191 is not the current Page cover recommendation.

LinkedIn Help: Page image specifications / Checked

<https://www.linkedin.com/help/linkedin/answer/a563309/>

LinkedIn Help: personal background photo / Checked

<https://www.linkedin.com/help/linkedin/answer/a568217/>

05 TikTok

The documented image sizes below apply to Standard Carousel ads, not every organic photo post. Use the 9:16 working canvas for vertical artwork and preview controls in the app.

TikTok for Business: Carousel ad specifications / Checked

<https://ads.tiktok.com/resources/help/article/specifications-for-carousel-ads?lang=en>

06 YouTube

YouTube now recommends 3840 x 2160 video thumbnails. Its older 1280 x 720 size is a working canvas. At the minimum 2048 x 1152 banner size, the text/logo safe area is 1235 x 338. A safe area is not a separate cover upload.

YouTube Help: custom thumbnails / Checked

<https://support.google.com/youtube/answer/72431>

YouTube Help: channel branding / Checked

<https://support.google.com/youtube/answer/10456525>

2026 EDITION / UPDATED OCTOBER 9, 2026

Placement notes and sources

Official platform documentation reviewed October 9, 2026. Full URLs are clickable.

07 Pinterest

Pinterest recommends 2:3 for standard image ads. Taller images can be cut off in feeds. This is a standard Pin canvas, not a board-cover requirement.

Pinterest Business Help: ad specifications / Checked

<https://help.pinterest.com/en/business/article/pinterest-product-specs>

08 Snapchat

Snap's current ad-format page lists 720 x 1280 for Single Image or Video Ads. 1080 x 1920 remains a working canvas for full-screen artwork, not a blanket minimum for every ad format.

Snapchat for Business: ad formats and specs / Checked

<https://forbusiness.snapchat.com/advertising/ad-formats>

09 WhatsApp

WhatsApp suggests a profile image at least 192 pixels in both dimensions. The 500-pixel export and Status canvas below are SquarePic working sizes; the uploader may crop or compress them.

WhatsApp Help: sending media / Checked

https://faq.whatsapp.com/453914586839706/?cms_platform=iphone

10 Twitch

Twitch's channel-page setup guidance recommends 1200 x 480 for the profile banner. Panel height varies; 320 x 160 is only a working canvas. English Help did not render, so the banner was checked against Twitch's Italian help page.

Twitch Help: channel page setup (Italian) / Checked

<https://help.twitch.tv/s/article/channel-page-setup?language=it>

11 Reddit

These are community banner minimums from Reddit Help. The old 4000 x 128 working preset is not the published minimum. Preview desktop and mobile separately.

Reddit Help: community banner / Checked

<https://support.reddithelp.com/hc/en-us/articles/1548433958884-Banner>

12 Telegram

Telegram's API describes generated 160 x 160 and 640 x 640 profile-photo variants. Those are output sizes, not upload requirements. The 500 x 500 canvas is an editorial working size; no channel-cover requirement was confirmed.

Telegram TDLib: profilePhoto / Checked

https://core.telegram.org/tlib/docs/classtd_1_1td_api_1_1profile_photo.html

13 Discord

The server banner and invite background are separate uploads. The banner needs Level 2 for a static image; the invite background needs Level 1. Keep the banner's top 48 pixels simple and check the invite pop-up overlay.

Discord Support: server banners / Checked

<https://support.discord.com/hc/en-us/articles/360028716472-Server-Banners>

Discord Support: server invite background / Checked

<https://support.discord.com/hc/en-us/articles/4415841146391-Server-Invite-Background>
